THE BRAINERD DAILY DISPATCH

Volume 22, Number 63 | BRAINERD, MINNESOTA, WEDNESDAY, AUGUST 16, 1922 | Price Three Cents

COAL MINING IS RESUMED IN SEVEN STATES

SCALE AGREEMENT ADOPTED BY UNANIMOUS VOTE TUES.

AGREEMENT IS SIGNED, AND DISTRICT UNION OFFICIALS ARE NOTIFIED

INSURES CONTINUED OPERATION OF NORTHWEST PAPER CO. PLANT

The settlement of the coal strike means much to Brainerd, for it insures the continued operation of The Northwest Paper Co. plant. The latter was getting to the end of its coal in its bunkers.

Although nominally using water power, coal is needed to operate its steam plant.

Cleveland, Aug. 16—Immediate resumption of coal production in bituminous mines scattered over seven states was ordered last night and in some places the cutting of coal will be started today. Orders for miners to return to work were sent by district union officials after operators had signed an agreement renewing the wage contracts in force when the men quit the mines last March 31.

Formal Break

The formal break in the strike came at 3:10 p. m., when the scale agreement was adopted by the unanimous vote of miners and operators at their joint confernece. The general agreement was then signed by T. K. Maher, of Cleveland, an operator, as chairman of the conference and William Green, a miner, as its secretary. Supplemental agreements between operators and state union officials were then executed with union chiefs, wiring local unions that work might be renewed.

Output to be Large

President John L. Lewis of the miners, said that operators controlling an annual output of approximately 60,000,000 tons had signed the agreement. Their mines, he said, were in West Virginia, Pennsylvania, Ohio, Indiana, Michigan, Oklahoma and Washington.

Mines to Open

James Paisley, one of the big operators signing the agreement, announced that his mines in Charlestown, Fairmore, Elm Grove and Morgantown, West Virginia; Valley Camp and Monongahela City, Pa., and Lafferty and Stuartsville, Ohio, would be opened tomorrow.

Plans of Unions

Plans for extending the break of the strike also were laid by the union men. Frank Farrington, the Illinois miners' president, announced he would ask the Illinois operators to meet the union's district scale committee at Chicago on Friday. John Hessler, head of the Indiana miners, also asked the Indiana operators to join in a scale conference at Terre Haute on the same day. Van A. Bittner, statistician for the international union, announced that operators in Kansas, Missouri, Oklahoma Texas and Arkansas, would be asked to meet with the union at Kansas City next Tuesday.

Policy Laid Down

Under the policy laid down today by the union, operators will be required to accept the interstate agreement made at the general conference here as the basis for their contracts with the union. This agreement provides for the re-establishment of the wage contracts which include the "check-off" of union dues that were in force last March 31, with the new contract to run until March 31 1923. Further the agreement provides for the creation of an advisory fact-finding commission, a meeting being called of all soft coal operators for next October to effect the selection of the commission.

Coal at Head of Lakes

St. Paul, Aug. 16—Movement of coal supplies to the head of the lakes will begin as soon as transportation difficulties are solved.

B. White, northwest federal fuel administrator, gave this assurance to state officials today upon his arrival here.

In any event he warned it will be difficult to secure anything like a normal supply of fuel at the head of the lakes.

Tomorrow Mr. White will go to Duluth and confer with Governor Preus, Ivan Bowen, state fuel administrator, and operators of coal docks at Duluth and Superior. While in Chicago yesterday White conferred with coal operators there and was assurred supplies reaching the lower lake ports will be promptly moved northward.

In a wire to Governor Preus today, Senator Kellogg was informed 150,000 tons of coal had been alloted to Lake Michigan and Lake Superior ports this week, and that 400,000 tons would be alloted next week.

Donald Conn, Minneapolis, late yesterday was appointed by Governor Preus to represent Minnesota in the joint fuel committee of northwest states in Washington. He left immediately for Washington. Administrator White is expected to confer with North Dakota officials soon on the possibility of using North Dakota lignite coal in the northwest.

Illinois Mines Still Closed

Chicago, Aug. 16.—As miners in other states returned to work today, the Illinois mines were still closed.

Preparations to reopen the mines were temporarily halted pending the meeting here Friday between operators and union officials.

Predictions were freely made that the Cleveland agreement will be ratified by the Illinois miners and operators.

Some opposition is expected from the operators. Many of the mines are ready to start operation within 24 hours after an agreement is reached.

Others May Sign Up

Washington, Aug. 16.—Scores of coal operators who did not attend the Cleveland peace meeting have signified their intention of joining in the strike settlement, Secretary of Labor Davis announced today.

Davis estimated the operators who signed the agreement represent an output of 2,000,000 tons of coal weekly.

Representatives of the labor department, he said, informed him that producers of another 2,000,000 tons weekly who were not represented at the conference will adhere to the agreement reached there within a few days.

The anthracite settlement is imminent, Davis said. This would add 1,750,000 tons to the weekly output and very soon bring the total production up to 11,000,000 tons a week as against an average weekly output of less than 10,000,000 gross tons last year, provided transportation facilities are available.

Claims Victory for Miners

Cleveland, Aug. 16.—John L. Lewis, president of the United Mine Workers, was preparing to issue instructions to district mine officials to place the agreement reached here yesterday before the operators of their districts at once.

If the operators sign the agreement, as Lewis predicted, the bituminous strike will be ended in 75 per cent of the soft coal districts.

Following the reaching of the agreement, Lewis issued a statement in which he hailed the pact as a "complete victory for the miners."

HEAT WAVE REACHES BOILING POINT SOON

(By United Press)

St. Paul, Aug. 16.—The heat wave of the last week threatened to reach a new high mark today when the official temperature plunged 12 degrees in four hours, with 84 at 10 o'clock.

The temperature was nearing 90 at noon. The weather man promised partially cloudy weather for today, but a broiling hot sun was unobstructed by even a feathery cloud.

St. Paul, Aug. 16.—Theodore Bambeneck, 15, drowned late Tuesday at McCarron's lake while swimming with boy companions. He stepped off into 15 feet of water.

Early Settlement of the Rail Strike Improbable

BORAH CALLS BONUS DELAY IMPERATIVE

G. O. P. WOULD "FORFEIT CONFIDENCE OF PEOPLE BY PASSAGE NOW," HE SAYS

Washington, Aug. 16—That the republican party "will forfeit the respect and confidence of the American people" if the soldier bonus bill is enacted into law was the statement today of Senator W. E. Borah of Idaho.

"We are informed that the next bill to be taken up and rushed through is the bonus bill," siad Senator Borah. "It seems incredible, in view of the business and industrial conditions of the country, that such a program would be considered in a crisis like that which confronts us at this particular time. The situation in the industrial world is very much more serious and discouraging than when the president came before congress in July, 1921, and asked that the bill, for economical and financial reasons be postponed.

"By reason of the transportation and the coal situation, conditions have been aggravated almost to a point of disaster. The coming winter, at the very best, will try the patience, courage and patriotism of our people. Nothing can prevent heavy losses to the farmers, fruit growers and potato growers of the west.

"In the face of these conditions for congress to deliberately add an indebtedness or obligation of the government, ranking all the way from $4,000,000,000 to $5,000,000(000, is a reckless and shameless disregard of those interests which we are here to protect."

TEXT OF SHOPMEN'S REJECTION OF NEW HARDING PEACE PLAN

Washington, Aug. 16.—Following is the text of the reply sent by striking shopmen in rejecting President Harding's second proposal to end the rail strike.

In your telegram of Aug. 7, you request that striking employes return to work and leave to the decision of the railroad labor board, after they have returned to work, the question of seniority as covered in the third paragraph of your telegram of July 31.

This request has been fully considered by the executive council of the railway employes department who represent the railway employes affected and you are hereby advised that the proposal contained in your telegram of Aug. 7 has been unanimously declined, for, among others, the following reasons:

1. On July 31, you submitted to the representatives of the railroad employes in question and to the railroad managers, the terms of agreement upon which the railway managers and united shopcraft workers are to unite preliminary to calling off the existing strike.

On the question of seniority your terms were that all employes now on strike were to be returned to their position with seniority and other rights unimpaired.

GATEKEEPER MAKES JIM PAY DOLLAR; BUT NOT FOR LONG

Pittsburgh, Aug. 16.—Jim Barnes had to pay a dollar to see himself participate in the national professional tournament at Oakmount Country club.

Barnes tried to use his face as a passport through the admission gate but he fared about as well as Walter Hagen did at Skokie last month.

"Old stuff—old stuff," growled the gate man when the eastern star insisted that he was who he was.

Barnes finally paid the dollar to the young man. He took no further action until after he had been eliminated from the tournament by Johnny Farrell.

Then he went to the secretary's office and got his dollar back.

UNITED PRESS COAL STRIKE SUMMARY GIVEN

The coal settlement signed in Cleveland spread today.

As miners in districts affected by the agremeent went back to the mines, and production started, Indiana operators agreed to sign with their men on the same terms.

A conference of miners and operators of the southwestern fields who held out against central settlement, was called with hopes high that an agreement will be reached.

Pittsburgh operators who held out against a general agreement met in response to miners request that the peace become complete in the bituminous field.

Nation wide peace and production of coal at full speed within a week was the opinion of encouraging reports of plans for tomorrow's anthracite meeting in Philadelphia.

PAIRING OFF LONESOME SOULS IN HAMMONDTON, N.J.

APPLICANTS REPRESENTED BY QUESTIONAIRES, NAMES CHOSEN BY LOT

CONDUCTED BY "COOPERATIVE LOVERS UNION", JURY OF 12 DECIDES

(By United Press.)

Hammondton, N. J., Aug. 16.—This was judgment day for 2,000 persons hailed before Cupid's court here.

Pairing off of lonesome souls the country over who desire mail order matrimony, was started in the Palace theatre before a judge and jury.

Those who were to be married off to each other were not present in person. They were represented by the questionaires they sent in to the "Cooperative Lovers Union" which contained a full description of their lives, habits and previous condition of matrimony.

Thomas D. Dekler, secretary, and Lewis Conley, president, pulled the first names from the myriads of applicants. Dekler drew the name of a woman from St. Paul who possessed a $10,000 farm and wanted a husband to help her manage it.

Conley drew the name of a college professor of Boston who was tired of "isms" and "ologies" and wanted someone to love him.

Arguments before the jury of twelve who were to decide whether the widow and professor should be married then started, and so on down the line.

When the jury pairs off a couple, both are communicated with. References which have been sent in by each party are exchanged. After investigation the two are supposed to start a mail order courtship lasting for six months after which marriage may result. If they live near, they may court at first hand.

Dekler believes it will take 20 weeks to mate the 2,000 persons who have applied.

Mrs. Allen Long Rodgers acted as judge. She impressed upon the jury the necessity of giving their most serious consideration to the case of each applicant. "Your duty is greater than that of a jury deciding the fate of a person charged with murder," she said. "In that case only one life is involved. In this case the fate of two lives is in your hands."

Notation under "remarks" in the questionaire read by Dekler and Conley furnished spice to the procedure.

A woman, 38, from Kansas City, said she objected to the use of the word "mate."

"The word sounds too much like a bird," she said. "My first husband was a bird. No more experiments in ornithology for me."

One woman, a buyer for a large department store in Cleveland at a salary of $12,000 a year wanted a business man, preferably a widower, whose income was at least $15,000 a year.

A laborer, from Akron, Ohio, who admitted he was getting old, wanted to marry a wealthy woman who would be kind to his six children.

A San Francisco broker came with the request for a wife with convivial inclinations, but "who would confine her conviviality to me."

SELLING BOOZE ON AMERICAN VESSELS

QUESTION IN HOUSE WHERE THE SUPPLIES ARE BEING BOUGHT

(By United Press)

Washington, Aug. 16—The controversy over booze selling on American ocean vessels broke out anew in the house today when resolutions were introduced demanding that the United States shipping board inform congress where the liquor now being dispensed on its ships is purchased.

The resolutions sponsored by Rpseentative Brennan, republican, and Representative Gallivan, democrat, called upon the shipping board to tell congress immediately whether it is true that agents of the board are buying liquor from distilleries in England while at the same time the prohibition officers of this government are seeking England's cooperation in an effort to prevent English ships with booze aboard from touching the American ports.

15 NEW FOREST FIRES BREAK OUT

(By United Press.)

St. Paul, Aug. 16.—Fifteen new forest fires have broken out in northern Minnesota since yesterday.

This was announced today by State Forester W. T. Cox. Many of the fires are in the peat bogs in Aitkin and Itasca counties. These are the most serious, he said.

Cox was granted money from the state emergency fund to fight the flames. Rain was reported along the international boundary which helped out the situation there.

There are more than three hundred fires burning in the northern counties of the state, Cox said.

Forest Fire Patrol Plane

Duluth, Aug. 16.—A forest fire patrol plane which left here this morning and arrived at Virginia at noon reported no forest fires were observed over the territory covered.

The plane carried A. T. Gibbs, forest ranger. It was piloted by Lieutenant Williams, of St. Paul, member of the state observation squadron.

STORM BRINGS RELIEF TO WESTERN SECTION

(By United Press.)

St. Paul, Aug. 16.—The storm which was supposed to bring relief in the Dakotas and Minnesota broke in Montana this morning and is moving eastward, covering a small section of the northwestern part of North Dakota with a half inch of rainfall at Williston where the temperature fell to 58 degrees. The rain moved eastward along the international boundary and covered most of Manitoba, but furnished no relief for this part of the northwest.

INDIANA GOVERNOR PROHIBITS FIGHT

(By United Press.)

Indianapolis, Ind., Aug. 16.—Jack Dempsey and Bill Brennan fight scheduled to be held in Michigan City, Labor Day, was prohibited by Governor McCray in an executive order today.

HANKE CONFESSES TO WRONG DOING

(By United Press)

Minneapolis, Aug. 16—Henry C. Hanke, for seventeen years treasurer of Hennepin county, has gone before the grand jury and confessed misapplication of funds which may total $250,000, it was learned today.

Hanke was in jail this morning when an indictment was returned against him. He was expected to be arraigned this afternoon and said he would plead guilty. It is probable he will be on his way to the state prison by tonight.

Hanke formerly was a state senator. His financial operations are said to have extended over the last four years.

Minneapolis, Aug. 16.—Hanke, former state senator and Hennepin county treasurer for 17 years, broke down today and confessed defalcations involving a quarter million dollars.

He was indicted by the grand jury at noon, was arraigned at 1 o'clock, pleaded guilty and was sentenced to the state prison for one to ten years. Shortly afterward he started for Stillwater.

Despite his frenzied and carefully planned speculations, Hennepin county probably will not lose a dollar as a result of Hanke's operations.

County Attorney Floyd Olson learned Hanke had invested nearly every cent of the money in real estate and in other property on which the county will be able to realize its losses. Hanke deeded all of his holdings to the county following his exposure and confession, it was said.

Confronted by evidence of his operations by Garfield Brown, state public examiner, and Floyd Olson, county attorney, Hanke at first declined any information. Later he broke down and confessed, telling the details of his operations over a period of four years.

Hanke said these were covered up by borrowings that enabled him to balance his books at the end of each month. He operated a loan office and held property that sustained his banking credit.

He was arrested late Monday, but his arrest was kept secret until today. He went before the grand jury this morning and told his story. The indictment was returned just before noon.

Hanke was a member of one of the oldest families in Minnesota. His parents were pioneers settling near Lake Calhoun.

When the report of his arrest reached the state capitol, Treasurer Henry Rines began checking up to determine if any of the shortages affected the country's payments of taxes to the state.

BILL OFFERED TO PAY CHIPPEWAS MILLION

Washington, Aug. 16.—The Chippewa Indians will be compensated for lands formerly belonging to them which have been disposed of under the free homestead law, under the terms of a bill introduced by Representative Harold Knutson, of St. Cloud.

The bill was drafted at the Indian bureau and is part of the program of Commissioner Charles H. Burke to procure money said to be due the Chippewa Indians of Minnesota.

The bill appropriates $1,108,937.12 with interest at the rate of 5 per cent from May 17, 1900.

TRACTION COMPANY CARRIES APPEAL TO STATE SUPREME COURT

Minneapolis, Aug. 16.—The Minneapolis Street Railway company, carried its refusal to explain all of the company's financial transactions to the state supreme court, by filing an appeal from the order of Judge Frank M. Nye, of Hennepin county district court. The appeal was taken in the name of the Minneapolis Street Railway company, the Twin City Rapid Transit company, the St. Paul City Railway company, Horace Lowry, E. W. Decker and others.

PRES. HARDING IS TO LAY SITUATION BEFORE CONGRESS

PRESIDENT EXPECTS TO SPEND DAY WITH CONGRESSIONAL LEADERS

REALIZES THE SITUATION IS CHARGED WITH POLITICAL DYNAMITE

Washington, Aug. 16—Skeptical of an early settlement of the rail strike at the new peace conference of executives and brotherhood leaders in New York Thursday, President Harding today prepared to place the critical transportation situation before Congress in a special message tomorrow.

Harding expected to spend most of the day in conference with congressional leaders and other advisors. He realized that the situation is charged with political dynamite and is seeking advice from all quarters before finally deciding on the text of his strike message.

Administration leaders are inclined to favor the view that the disputants in agreeing to the Thursday meeting in New York simply are jockeying for public favor.

There can be no settlement unless one side or the other is prepared to make radical concessions.

Pessimism regarding the settlement was found in the flat refusal of Harding's proposal by the leaders of the 400,000 striking shop craftsmen. The strike leaders demand unimpared seniority rights, and the railroad executives stand just as firmly against it.

Rail Strike Crisis Past

San Francisco, Aug. 16.—The western rail strike crisis has passed, railroad men and shippers declared today.

The optimistic outlook results from the following improvements in the situation:

1. Lifting of the embargo on fruit, live stock and perishable freight by the Southern Pacific.
2. Operation of passenger trains by the Santa Fe.
3. Announcement by the Union Pacific that they expected to move trains within 24 hours.

Brotherhood leaders and railway officials are working to bring conditions back to normal.

Fruit growers faced with a loss of the $50,000,000 fruit crop met here to determine what steps should be taken.

37 Passenger Trains Off

Madison, Wis., Aug. 16.—Thirty-seven passenger trains were slashed off the Chicago & Northwestern time table on five midwestern divisions of the road by orders received here effective today.

Local switching service in the Northwestern yards was badly crippled today as the result of the refusal of engineers to operate switch engines which had not been inspected and passed by federal authorities.

President Meets Senate Leaders

Washington, Aug. 16.—President Harding today conferred with leaders of the senate and the house on the rail strike message which he expects to deliver to congress tomorrow.

Pledges were given by republican senate leader Lodge and members of the house republican steering committee that congress is ready to back the executive to the limit in any move toward ending of the strike that he may deem necessary.

Senator Lodge indicated that no amendment to the Esch-Cummins law to put "peace" in the railroad labor board provisions would be asked.

Montreal, Aug. 16.—Canadian Railways today cut the wages of their shopmen about $200,000 although 37,000 workers had threatened to strike if the action was taken before the board of conciliation had decided the dispute.

THE BRAINERD DAILY DISPATCH

Volume 22, Number 63 | BRAINERD, MINNESOTA, WEDNESDAY, AUGUST 16, 1922 | Price Three Cents

COAL MINING IS RESUMED IN SEVEN STATES

SCALE AGREEMENT ADOPTED BY UNANIMOUS VOTE TUES.

AGREEMENT IS SIGNED, AND DISTRICT UNION OFFICIALS ARE NOTIFIED

INSURES CONTINUED OPERATION OF NORTHWEST PAPER CO. PLANT

The settlement of the coal strike means much to Brainerd, for it insures the continued operation of The Northwest Paper Co. plant. The latter was getting to the end of its coal in its bunkers.

Although nominally using water power, coal is needed to operate its steam plant.

Cleveland, Aug. 16—Immediate resumption of coal production in bituminous mines scattered over seven states was ordered last night and in some places the cutting of coal will be started today. Orders for miners to return to work were sent by district union officials after operators had signed an agreement renewing the wage contracts in force when the men quit the mines last March 31.

Formal Break

The formal break in the strike came at 3:10 p. m., when the scale agreement was adopted by the unanimous vote of miners and operators at their joint confernece. The general agreement was then signed by T. K. Maher, of Cleveland, an operator, as chairman of the conference and William Green, a miner, as its secretary. Supplemental agreements between operators and state union officials were then executed with union chiefs, wiring local unions that work might be renewed.

Output to be Large

President John L. Lewis of the miners, said that operators controlling an annual output of approximately 60,000,000 tons had signed the agreement. Their mines, he said, were in West Virginia, Pennsylvania, Ohio, Indiana, Michigan, Oklahoma and Washington.

Mines to Open

James Paisley, one of the big operators signing the agreement, announced that his mines in Charlestown, Fairmore, Elm Grove and Morgantown, West Virginia; Valley Camp and Monongahela City, Pa., and Lafferty and Stuartsville, Ohio, would be opened tomorrow.

Plans of Unions

Plans for extending the break of the strike also were laid by the union men. Frank Farrington, the Illinois miners' president, announced he would ask the Illinois operators to meet the union's district scale committee at Chicago on Friday. John Hessler, head of the Indiana miners, also asked the Indiana operators to join in a scale conference at Terre Haute on the same day. Van A. Bittner, statistician for the international union, announced that operators in Kansas, Missouri, Oklahoma, Texas and Arkansas, would be asked to meet with the union at Kansas City next Tuesday.

Policy Laid Down

Under the policy laid down today by the union, operators will be required to accept the interstate agreement made at the general conference here as the basis for their contracts with the union. This agreement provides for the re-establishment of the wage contracts which include the "check-off" of union dues that were in force last March 31, with the new contract to run until March 31 1923. Further the agreement provides for the creation of an advisory fact-finding commission, a meeting being called of all soft coal operators for next October to effect the selection of the commission.

Coal at Head of Lakes

St. Paul, Aug. 16—Movement of coal supplies to the head of the lakes will begin as soon as transportation difficulties are solved.

B. White, northwest federal fuel administrator, gave this assurance to state officials today upon his arrival here.

In any event he warned it will be difficult to secure anything like a normal supply of fuel at the head of the lakes.

Tomorrow Mr. White will go to Duluth and confer with Governor Preus, Ivan Bowen, state fuel administrator, and operators of coal docks at Duluth and Superior. While in Chicago yesterday White conferred with coal operators there and was assurred supplies reaching the lower lake ports will be promptly moved northward.

In a wire to Governor Preus today, Senator Kellogg was informed 150,000 tons of coal had been alloted to Lake Michigan and Lake Superior ports this week, and that 400,000 tons would be alloted next week.

Donald Conn, Minneapolis, late yesterday was appointed by Governor Preus to represent Minnesota in the joint fuel committee of northwest states in Washington. He left immediately for Washington. Administrator White is expected to confer with North Dakota officials soon on the possibility of using North Dakota lignite coal in the northwest.

Illinois Mines Still Closed

Chicago, Aug. 16.—As miners in other states returned to work today, the Illinois mines were still closed.

Preparations to reopen the mines were temporarily halted pending the meeting here Friday between operators and union officials.

Predictions were freely made that the Cleveland agreement will be ratified by the Illinois miners and operators.

Some opposition is expected from the operators. Many of the mines are ready to start operation within 24 hours after an agreement is reached.

Others May Sign Up

Washington, Aug. 16.—Scores of coal operators who did not attend the Cleveland peace meeting have signified their intention of joining in the strike settlement, Secretary of Labor Davis announced today.

Davis estimated the operators who signed the agreement represent an output of 2,000,000 tons of coal weekly.

Representatives of the labor department, he said, informed him that producers of another 2,000,000 tons weekly who were not represented at the conference will adhere to the agreement reached there within a few days.

The anthracite settlement is imminent, Davis said. This would add 1,750,000 tons to the weekly output and very soon bring the total production up to 11,000,000 tons a week as against an average weekly output of less than 10,000,000 gross tons last year, provided transportation facilities are available.

Claims Victory for Miners

Cleveland, Aug. 16.—John L. Lewis, president of the United Mine Workers, was preparing to issue instructions to district mine officials to place the agreement reached here yesterday before the operators of their districts at once.

If the operators sign the agreement, as Lewis predicted, the bituminous strike will be ended in 75 per cent of the soft coal districts.

Following the reaching of the agreement, Lewis issued a statement in which he hailed the pact as a "complete victory for the miners."

HEAT WAVE REACHES BOILING POINT SOON

(By United Press)

St. Paul, Aug. 16.—The heat wave of the last week threatened to reach a new high mark today when the official temperature plunged 12 degrees in four hours, with 84 at 10 o'clock.

The temperature was nearing 90 at noon. The weather man promised partially cloudy weather for today, but a broiling hot sun was unobstructed by even a feathery cloud.

St. Paul, Aug. 16.—Theodore Bambeneck, 15, drowned late Tuesday at McCarron's lake while swimming with boy companions. He stepped off into 15 feet of water.

Early Settlement of the Rail Strike Improbable

BORAH CALLS BONUS DELAY IMPERATIVE

G. O. P. WOULD "FORFEIT CONFIDENCE OF PEOPLE BY PASSAGE NOW," HE SAYS

Washington, Aug. 16—That the republican party "will forfeit the respect and confidence of the American people" if the soldier bonus bill is enacted into law was the statement today of Senator W. E. Borah of Idaho.

"We are informed that the next bill to be taken up and rushed through is the bonus bill," siad Senator Borah. "It seems incredible, in view of the business and industrial conditions of the country, that such a program would be considered in a crisis like that which confronts us at this particular time. The situation in the industrial world is very much more serious and discouraging than when the president came before congress in July, 1921, and asked that the bill, for economical and financial reasons be postponed.

"By reason of the transportation and the coal situation, conditions have been aggravated almost to a point of disaster. The coming winter, at the very best, will try the patience, courage and patriotism of our people. Nothing can prevent heavy losses to the farmers, fruit growers and potato growers of the west.

"In the face of these conditions for congress to deliberately add an indebtedness or obligation of the government, ranking all the way from $4,000,000,000 to $5,000,000(000, is a reckless and shameless disregard of those interests which we are here to protect."

TEXT OF SHOPMEN'S REJECTION OF NEW HARDING PEACE PLAN

Washington, Aug. 16.—Following is the text of the reply sent by striking shopmen in rejecting President Harding's second proposal to end the rail strike.

In your telegram of Aug. 7, you request that striking employes return to work and leave to the decision of the railroad labor board, after they have returned to work, the question of seniority as covered in the third paragraph of your telegram of July 31.

This request has been fully considered by the executive council of the railway employes department who represent the railway employes affected and you are hereby advised that the proposal contained in your telegram of Aug. 7 has been unanimously declined, for, among others, the following reasons:

1. On July 31, you submitted to the representatives of the railroad employes in question and to the railroad managers, the terms of agreement upon which the railway managers and united shopcraft workers are to unite preliminary to calling off the existing strike.

On the question of seniority your terms were that all employes now on strike were to be returned to their position with seniority and other rights unimpaired.

GATEKEEPER MAKES JIM PAY DOLLAR; BUT NOT FOR LONG

Pittsburgh, Aug. 16.—Jim Barnes had to pay a dollar to see himself participate in the national professional tournament at Oakmount Country club.

Barnes tried to use his face as a passport through the admission gate but he fared about as well as Walter Hagen did at Skokie last month.

"Old stuff—old stuff," growled the gate man when the eastern star insisted that he was who he was.

Barnes finally paid the dollar to the young man. He took no further action until after he had been eliminated from the tournament by Johnny Farrell.

Then he went to the secretary's office and got his dollar back.

UNITED PRESS COAL STRIKE SUMMARY GIVEN

The coal settlement signed in Cleveland spread today.

As miners in districts affected by the agremeent went back to the mines, and production started, Indiana operators agreed to sign with their men on the same terms.

A conference of miners and operators of the southwestern fields who held out against central settlement, was called with hopes high that an agreement will be reached.

Pittsburgh operators who held out against a general agreement met in response to miners request that the peace become complete in the bituminous field.

Nation wide peace and production of coal at full speed within a week was the opinion of encouraging reports of plans for tomorrow's anthracite meeting in Philadelphia.

PAIRING OFF LONESOME SOULS IN HAMMONDTON, N.J.

APPLICANTS REPRESENTED BY QUESTIONAIRES, NAMES CHOSEN BY LOT

CONDUCTED BY "COOPERATIVE LOVERS UNION", JURY OF 12 DECIDES

(By United Press.)

Hammondton, N. J., Aug. 16.—This was judgment day for 2,000 persons hailed before Cupid's court here.

Pairing off of lonesome souls the country over who desire mail order matrimony, was started in the Palace theatre before a judge and jury.

Those who were to be married off to each other were not present in person. They were represented by the questionaires they sent in to the "Cooperative Lovers Union" which contained a full description of their lives, habits and previous condition of matrimony.

Thomas D. Dekler, secretary, and Lewis Conley, president, pulled the first names from the myriads of applicants. Dekler drew the name of a woman from St. Paul who possessed a $10,000 farm and wanted a husband to help her manage it.

Conley drew the name of a college professor of Boston who was tired of "isms" and "ologies" and wanted someone to love him.

Arguments before the jury of twelve who were to decide whether the widow and professor should be married then started, and so on down the line.

When the jury pairs off a couple, both are communicated with. References which have been sent in by each party are exchanged. After investigation the two are supposed to start a mail order courtship lasting for six months after which marriage may result. If they live near, they may court at first hand.

Dekler believes it will take 20 weeks to mate the 2,000 persons who have applied.

Mrs. Allen Long Rodgers acted as judge. She impressed upon the jury the necessity of giving their most serious consideration to the case of each applicant. "Your duty is greater than that of a jury deciding the fate of a person charged with murder," she said. "In that case only one life is involved. In this case the fate of two lives is in your hands."

Notation under "remarks" in the questionaire read by Dekler and Conley furnished spice to the procedure.

A woman, 38, from Kansas City, said she objected to the use of the word "mate."

"The word sounds too much like a bird," she said. "My first husband was a bird. No more experiments in ornithology for me."

One woman, a buyer for a large department store in Cleveland at a salary of $12,000 a year wanted a business man, preferably a widower, whose income was at least $15,000 a year.

A laborer, from Akron, Ohio, who admitted he was getting old, wanted to marry a wealthy woman who would be kind to his six children.

A San Francisco broker came with the request for a wife with convivial inclinations, but "who would confine her conviviality to me."

SELLING BOOZE ON AMERICAN VESSELS

QUESTION IN HOUSE WHERE THE SUPPLIES ARE BEING BOUGHT

(By United Press)

Washington, Aug. 16—The controversy over booze selling on American ocean vessels broke out anew in the house today when resolutions were introduced demanding that the United States shipping board inform congress where the liquor now being dispensed on its ships is purchased.

The resolutions sponsored by Rpseentative Brennan, republican, and Representative Gallivan, democrat, called upon the shipping board to tell congress immediately whether it is true that agents of the board are buying liquor from distilleries in England while at the same time the prohibition officers of this government are seeking England's cooperation in an effort to prevent English ships with booze aboard from touching the American ports.

15 NEW FOREST FIRES BREAK OUT

(By United Press.)

St. Paul, Aug. 16.—Fifteen new forest fires have broken out in northern Minnesota since yesterday.

This was announced today by State Forester W. T. Cox. Many of the fires are in the peat bogs in Aitkin and Itasca counties. These are the most serious, he said.

Cox was granted money from the state emergency fund to fight the flames. Rain was reported along the international boundary which helped out the situation there.

There are more than three hundred fires burning in the northern counties of the state, Cox said.

Forest Fire Patrol Plane

Duluth, Aug. 16.—A forest fire patrol plane which left here this morning and arrived at Virginia at noon reported no forest fires were observed over the territory covered.

The plane carried A. T. Gibbs, forest ranger. It was piloted by Lieutenant Williams, of St. Paul, member of the state observation squadron.

STORM BRINGS RELIEF TO WESTERN SECTION

(By United Press.)

St. Paul, Aug. 16.—The storm which was supposed to bring relief in the Dakotas and Minnesota broke in Montana this morning and is moving eastward, covering a small section of the northwestern part of North Dakota with a half inch of rainfall at Williston where the temperature fell to 58 degrees. The rain moved eastward along the international boundary and covered most of Manitoba, but furnished no relief for this part of the northwest.

INDIANA GOVERNOR PROHIBITS FIGHT

(By United Press.)

Indianapolis, Ind., Aug. 16.—Jack Dempsey and Bill Brennan fight scheduled to be held in Michigan City, Labor Day, was prohibited by Governor McCray in an executive order today.

HANKE CONFESSES TO WRONG DOING

(By United Press)

Minneapolis, Aug. 16—Henry C. Hanke, for seventeen years treasurer of Hennepin county, has gone before the grand jury and confessed misapplication of funds which may total $250,000, it was learned today.

Hanke was in jail this morning when an indictment was returned against him. He was expected to be arraigned this afternoon and said he would plead guilty. It is probable he will be on his way to the state prison by tonight.

Hanke formerly was a state senator. His financial operations are said to have extended over the last four years.

Minneapolis, Aug. 16.—Hanke, former state senator and Hennepin county treasurer for 17 years, broke down today and confessed defalcations involving a quarter million dollars.

He was indicted by the grand jury at noon, was arraigned at 1 o'clock, pleaded guilty and was sentenced to the state prison for one to ten years. Shortly afterward he started for Stillwater.

Despite his frenzied and carefully planned speculations, Hennepin county probably will not lose a dollar as a result of Hanke's operations.

County Attorney Floyd Olson learned Hanke had invested nearly every cent of the money in real estate and in other property on which the county will be able to realize its losses. Hanke deeded all of his holdings to the county following his exposure and confession, it was said.

Confronted by evidence of his operations by Garfield Brown, state public examiner, and Floyd Olson, county attorney, Hanke at first declined any information. Later he broke down and confessed, telling the details of his operations over a period of four years.

Hanke said these were covered up by borrowings that enabled him to balance his books at the end of each month. He operated a loan office and held property that sustained his banking credit.

He was arrested late Monday, but his arrest was kept secret until today. He went before the grand jury this morning and told his story. The indictment was returned just before noon.

Hanke was a member of one of the oldest families in Minnesota. His parents were pioneers settling near Lake Calhoun.

When the report of his arrest reached the state capitol, Treasurer Henry Rines began checking up to determine if any of the shortages affected the country's payments of taxes to the state.

BILL OFFERED TO PAY CHIPPEWAS MILLION

Washington, Aug. 16.—The Chippewa Indians will be compensated for lands formerly belonging to them which have been disposed of under the free homestead law, under the terms of a bill introduced by Representative Harold Knutson, of St. Cloud.

The bill was drafted at the Indian bureau and is part of the program of Commissioner Charles H. Burke to procure money said to be due the Chippewa Indians of Minnesota.

The bill appropriates $1,108,937.12 with interest at the rate of 5 per cent from May 17, 1900.

TRACTION COMPANY CARRIES APPEAL TO STATE SUPREME COURT

Minneapolis, Aug. 16.—The Minneapolis Street Railway company, carried its refusal to explain all of the company's financial transactions to the state supreme court, by filing an appeal from the order of Judge Frank M. Nye, of Hennepin county disirict court. The appeal was taken in the name of the Minneapolis Street Railway company, the Twin City Rapid Transit company, the St. Paul City Railway company, Horace Lowry, E. W. Decker and others.

PRES. HARDING IS TO LAY SITUATION BEFORE CONGRESS

PRESIDENT EXPECTS TO SPEND DAY WITH CONGRESSIONAL LEADERS

REALIZES THE SITUATION IS CHARGED WITH POLITICAL DYNAMITE

Washington, Aug. 16—Skeptical of an early settlement of the rail strike at the new peace conference of executives and brotherhood leaders in New York Thursday, President Harding today prepared to place the critical transportation situation before Congress in a special message tomorrow.

Harding expected to spend most of the day in conference with congressional leaders and other advisors. He realized that the situation is charged with political dynamite and is seeking advice from all quarters before finally deciding on the text of his strike message.

Administration leaders are inclined to favor the view that the disputants in agreeing to the Thursday meeting in New York simply are jockeying for public favor.

There can be no settlement unless one side or the other is prepared to make radical concessions.

Pessimism regarding the settlement was found in the flat refusal of Harding's proposal by the leaders of the 400,000 striking shop craftsmen. The strike leaders demand unimpared seniority rights, and the railroad executives stand just as firmly against it.

Rail Strike Crisis Past

San Francisco, Aug. 16.—The western rail strike crisis has passed, railroad men and shippers declared today.

The optimistic outlook results from the following improvements in the situation:

1. Lifting of the embargo on fruit, live stock and perishable freight by the Southern Pacific.
2. Operation of passenger trains by the Santa Fe.
3. Announcement by the Union Pacific that they expected to move trains within 24 hours.

Brotherhood leaders and railway officials are working to bring conditions back to normal.

Fruit growers faced with a loss of the $50,000,000 fruit crop met here to determine what steps should be taken.

37 Passenger Trains Off

Madison, Wis., Aug. 16.—Thirty-seven passenger trains were slashed off the Chicago & Northwestern time table on five midwestern divisions of the road by orders received here effective today.

Local switching service in the Northwestern yards was badly crippled today as the result of the refusal of engineers to operate switch engines which had not been inspected and passed by federal authorities.

President Meets Senate Leaders

Washington, Aug. 16.—President Harding today conferred with leaders of the senate and the house on the rail strike message which he expects to deliver to congress tomorrow.

Pledges were given by republican senate leader Lodge and members of the house republican steering committee that congress is ready to back the executive to the limit in any move toward ending of the strike that he may deem necessary.

Senator Lodge indicated that no amendment to the Esch-Cummins law to put "peace" in the railroad labor board provisions would be asked.

Montreal, Aug. 16.—Canadian Railways today cut the wages of their shopmen about $200,000 although 37,000 workers had threatened to strike if the action was taken before the board of conciliation had decided the dispute.

THE WEATHER

For cast for next 24 hours:

Minnesota weather. Generally fair tonight and Thursday, except somewhat unsettled in extreme north. Slightly cooler in northwest tonight.

Cooperative observer's record, 6 P. M.

BIG ATTENDANCE AT BEMIDJI FAIR

In a telegram to theDispatch, W. Z. Robinson, director of the Northern Minnesota Fair now in progress in Bemidji states that the attendance is beyond their expectations.

The exhibits are very fine this year and include two hundred fifty excellent specimens of Guernsey, Holsteins and Red Pole cattle of royal breeding, Sixty Chesterwhite, Poland China and Duroc hogs which come direct from the Canadian Government exhibit, and a good variety of grains, grasses and vegetables.

The track events include sixty-five fast horses from the Northwest, motorcycle and automobile races. There will also be plenty of open air vaudeville, a magnificent historic pageant on Wednesday, Thursday and Friday, and a live stock sale on Saturday. Governor Preus speaks on Wednesday afternoon.

It is the hope to make this Northern Minnesota Fair second only to the Minnesota State Fair.

AMERICAN LEGION GRAND VIEW DANCE

It is expected that the American Legion dance to be held tonight at Grand View Lodge will be the largest of the season. Those in charge have made an extra effort to make the evening a most pleasant one.

There will be special music furnished by local musicians, and the famous Legion quartette, led by Al Mraz will render numerous selections.

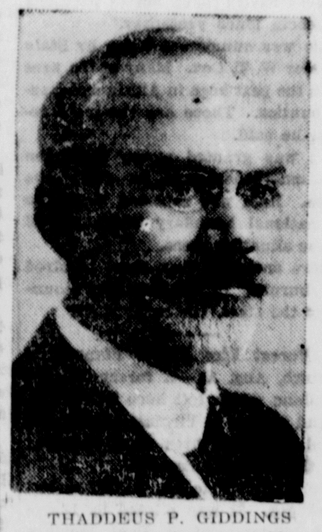

The Legion has not had any advance sale of tickets, knowing that the business men have been pushed hard in that line. This fact should be appreciated and a large turnout result.

Philathea Bible Class

The Philathea Bible class of the Methodist church will hold its business meeting on Friday evening, August 16, at the home of Mrs. Dan Marken, 618 North Ninth street. Visitors are welcome.

Moon Influences Mushroom Growth.

The growth of mushrooms is influenced considerably by changes of the moon. Observers of these night growths know that at full moon the crop invariably shows itself, but when on the wane there is a perceptible decline.

BIG ATTENDANCE AT BEMIDJI FAIR

In a telegram to theDispatch, W. Z. Robinson, director of the Northern Minnesota Fair now in progress in Bemidji states that the attendance is beyond their expectations.

The exhibits are very fine this year and include two hundred fifty excellent specimens of Guernsey, Holsteins and Red Pole cattle of royal breeding, Sixty Chesterwhite, Poland China and Duroc hogs which come direct from the Canadian Government exhibit, and a good variety of grains, grasses and vegetables.

The track events include sixty-five fast horses from the Northwest, motorcycle and automobile races. There will also be plenty of open air vaudeville, a magnificent historic pageant on Wednesday, Thursday and Friday, and a live stock sale on Saturday. Governor Preus speaks on Wednesday afternoon.

It is the hope to make this Northern Minnesota Fair second only to the Minnesota State Fair.

AMERICAN LEGION GRAND VIEW DANCE

It is expected that the American Legion dance to be held tonight at Grand View Lodge will be the largest of the season. Those in charge have made an extra effort to make the evening a most pleasant one.

There will be special music furnished by local musicians, and the famous Legion quartette, led by Al Mraz will render numerous selections.

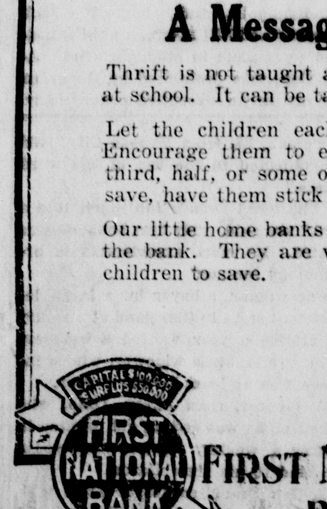

The Legion has not had any advance sale of tickets, knowing that the business men have been pushed hard in that line. This fact should be appreciated and a large turnout result.

Philathea Bible Class

The Philathea Bible class of the Methodist church will hold its business meeting on Friday evening, August 16, at the home of Mrs. Dan Marken, 618 North Ninth street. Visitors are welcome.

Moon Influences Mushroom Growth.

The growth of mushrooms is influenced considerably by changes of the moon. Observers of these night growths know that at full moon the crop invariably shows itself, but when on the wane there is a perceptible decline.

CRITICIZES THE PENNSYLVANIA

FORMER VICE CHAIRMAN OF LABOR BOARD GIVES VIEWS IN CHICAGO PAPER

SAYS LABOR HEADS AND ROADS CAN GET TOGETHER IF THEY WISH TO

HENRY T. HUNT
(In Chicago American)

New York, Aug. 18—The success of the Pennsylvania Railroad Company in evading the Railroad Labor Board's ruling, finding the company guilty of violating its decision, is one of the chief causes of the railroad strike.

One of the conditions necessary to settlement of the strike, in my opinion, must be the dismissal by the railroad of its appeal to the Supreme Court of the United States from the decision of the Circuit Court of Appeals.

If the railroad executives and the heads of the labor unions really seek a settlement, it can be brought about.

Group at Strike Bottom

There is a group of railroad executives who believe it necessary for railroad efficiency to eliminate the shopcraft unions. As I see it, the successful pressure of this group on the administration and on the labor board has done much to cause this strike.

The principle to be firmly grasped and applied to the solution of all railroad problems, including the present strike, is that the public interest is paramount over all others. Railroad property is property devoted to a public use, and railroads executives who manage it are under a duty to the public to supply safe, prompt, cheap and adequate transportation. These executives are only agents of the public. Insofar only as their acts are within the scope of this agency, that is, insofar as they promote the public interest, they find their principle, the public, is bound morally at least, to confine the promises of the executives when within this agency.

Any Other Course Delay

To supply transportation, a disciplined force, including shop forces is necessary. The only possibility of providing such a force is to get the men who have been trained for years in the technique for shop work back on the job. Any other course will, at the best, long delay the safe, adequate and economical transportation and may even stop transportation altogether.

It appears that new employes have been engaged and that promises of permanent employment have been made to them by the executives. These promises went beyond all the scope of the powers entrusted to these executives by the public, and the public interest should not be sacrificed because of them. Some executives made them deliberately to break down bridges for a retreat. They seized vaguely upon what seemed an opportunity to break the shop craft unions. If the directors of these companies feel that the promises of these executives must be made good, they should supply work for these new men in places separate from the regular shops, and as extra men only. To have them work in contact with the regular employes would invite conflict.

In other words, the strikers should be taken back with seniority unimpaired. This is the only way to satisfy the public needs, and is urgent to safe and economical transportation.

Strikers Now Penalized

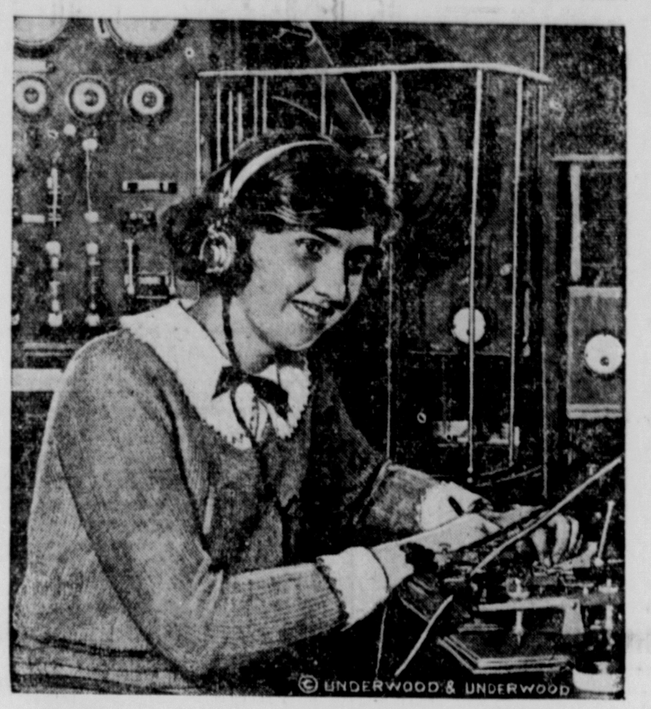

If these strikers were wrong in leaving their work, they have been sufficiently punished by the loss of six weeks' pay. A number of railroads, including the Pennsylvania and Erie, have flagrantly violated decisions of the labor board and have gotten away with it. The public and the board were indifferent.

The board has also been guilty of delays in handling down decisions. There comes a time when patience is no longer a virtue, when action is necessary to jolt the public with notice of the sins of their agents. This has now been accomplished.

If railroads and employes have been brought into a mood to obey the board's decisions, and the public has been made to understand that many railroads have violated them and to induce no more violations by either party, the strike is worth its cost. Possibly the labor boad has learned not to try to fix wages so as to help the railroads earn 6 per cent on their valuation. Labor board members should stick to the law, which declares that the wages they fix should be just and reasonable.

EARLY to bed, early to rise, stick to your business and advertise.

Radio Is Anything but "Wireless;" Fans Find It Takes a Lot of Copper

Radio Girl, on Marconi ship, sitting in maze of copper wires

BY good fortune the old word "wireless" has now given way to "radio," a shorter and more accurate term. The amateur would have changed it anyway long before this because he is coming to a full realization of what an endless amount of wire is needed to operate a really efficient "wireless" set.

The amateur as well as the professional finds himself working with a maze of copper wires and brass posts, plugs, and bases. The head phones for instance have concealed in their covering a mile of enameled copper wire with a diameter about the size of a human hair.

It is in the antennae or aerials for radio telephony that copper is of the greatest use. Probably in no other service is copper subjected to a more critical test and, in addition to providing unequalled conductivity where it is most needed, copper also permanently resists corrosion and furnishes the necessary tensile strength to resist the wind and its own weight. Attempts to substitute aluminun have met with little success because it lacks strength. And so called "copper clad" wire, which is steel wire covered with copper, gives only about forty per cent as much conductivity as real copper wire.

Experiments by the U. S. Bureau of Standards have led to the conclusion that No. 14 or No. 16 bare copper wire is the best. For large antennae phosphor bronze made with seven strands of No. 20 or No. 22 wire is most satisfactory. This strand construction absorbs considerable stress and minimizes stretching.

The Elettra, Marconi's radio ship, is a good example of the use of copper, brass and bronze where the best radio results are successfully sought. Quite aside from the lavish use of rustless material in the construction of the ship itself the Elettra is equipped with a radio room that bristles with these radio metals.

PLENTY BUSINESS HERE, SAYS ERICKSON

C. N. Erickson, of the Eagle Provision Co., reports a very large business this summer and is very optimistic over the trade outlook for this fall. Mr. Erickson says that the strikes are not affecting his trade in the least. He is going right ahead buying and selling as if there were no strike troubles. He believes that if every merchant would be guided accordingly, their business would be better. There is plenty of business in Brainerd if one goes after it and Mr. Erickson is a "go-getter".

The Eagle Provision Co., is composed of three stores, the main headquarters in Brainerd, with branches in Little Falls and Staples. There are six clerks in the Brainerd store, and they are kept hustling most of the time to take care of the trade. The company conducts its business on the cash and carry plan, which insures the customer the best staple groceries at a minimum cost.

Mr. Erickson believes that there should be a more concerted effort on the part of Brainerd's business men to increase the tourist business in this territory. He feels that this is a business which has been underestimated ,and that by working together the tourist trade could be greatly increased next season.

The avearge person does not realize the number of summer travelers who pass through this city going and coming from vacations, neither do they realize the amount of money that is spent in Brainerd by these visitors. More tourist travel could and should be diverted to come this way, and Mr. Erickson is anxious to co-operate with the other business houses to bring it here.

That the Eagle Provision Co., is a large advertiser goes without saying, else how could they bring their products and prices so forcibly to the notice of the public? When Mr. Erickson wishes to let Brainerd housewives know of some of the bargains he is offering, he does it through the papers, and the results are sure and certain. There is no advantage in hiding one's lamp under a bushel.

Bethany Birthday Club

103 ANIMAL ACTS

Howe's Great London Wild Animal Circus Overtops All Other Organizations

Just as the ponderous, pea-eyed, palm-eared pachyderm towers above the miserable, morbid, and melancholy mouse, does Howe's Great London Wild Animal Circus overtop all other tented aggregations, says D. P. White, press agent here in advance of the show.

In the steel-barred cages of the Howe show are to be found the greatest collection of wild animals ever before gathered en group. Even opposition circus men reluctantly admit it. Animals, like figures, can't lie, and all may be counted. It is the boast of Col. Seth Howe, that under the canvas of his big 3-ring show may be seen the finest and best examples of jungle, plain and desert life. Each in his way is a perfect specimen. And, what is more, each is trained. In all, 103 animal acts are presented.

Years have been spent in making the collection unique, novel, and extraordinary. Patrons of previous years have been lavish in their praise not only of the animals as exhibited, but in the remarkable progress of the Howe's circus trainers, for each has in his way, achieved the hitherto impossible.

But the merit of the past is naught compared with the supremacy of the present. Scarcity and prohibitive prices have prevented circus owners generally from increasing their collections. But not Howe's Great London Circus. Throughout the winter, while the big show was in its southern California winter quarters, agents of Col. Howe scoured Europe and Asia for newer and finer specimens of forests and jungle beast. Even now the great menagerie is not complete although by far and away the best in the country, and new animals are arriving almost daily.

Howe's Great London Wild Animal Circus with its long trains of circus cars will reach Brainerd on the morning of Aug. 19th.

Two performances will be given, afternoon and evening, following the two-mile-long monster free street parade at 10:30 a. m.

First will be shown the greatest spectacle of modern times, the splendid, spirited, and scintillating "Cinderella in Jungleland", a frolicsome fantasy of fairyland, designed and produced under the personal supervision of Manager Chas. T. Boulware.

RETAINS HIS STOCK AND DIRECTORSHIP

In addition to yesterday's news story regarding the change in the personnel of the Comemrcial State bank, it may be stated that M. W. Irgens only retires as active officer in the bank but is retaining his stock and directorship.

CHARGED WITH TRESPASSING

Disturbing Peace, Damaging Furniture of Business & Professional Women's Club

Julius Witham and Sherwood Hartley were arraigned in municipal court this morning on a charge of trespassing, disturbing the peace and damaging furniture Tuesday night in the rooms over the Lyceum theatre occupied by the Business and Professional Women's club. Both plead guilty and were fined $10 which was paid.

The club rooms have never been locked, for the convenience of the members, and until this occasion, nothing has ever been disturbed.

MISSION FARM BUREAU MEETING

The Mission farm bureau unit were well entertained at their monthly meeting held at the Bert Sabin farm Tuesday.

A large number were in attendance, and enjoyed a very interesting program, which began with a picnic dinner, and closed with an inspection of Mr. Sabin's orchard.

This orchard is one of the finest in the country. Mr. Sabin has a new kind of tame plum, which has been introduced by the University of Minnesota. It is called the Underwood plum, is of a dark red color and as large as the large California varieties. The orchard consists of about four acres of small fruit.

The club passed a resolution endorsing Henry Ford's Muscle Shoals proposition.

MISKE-FULTON BOUT NOW SET FOR AUG. 25

The Miske-Fulton boxing contest which was to be held at Lexington Park St. Paul on August 11 has been definitely set for Friday evening August 25th at the same place and the only possible thing that will keep the boxers from going on is if they should lose a leg.

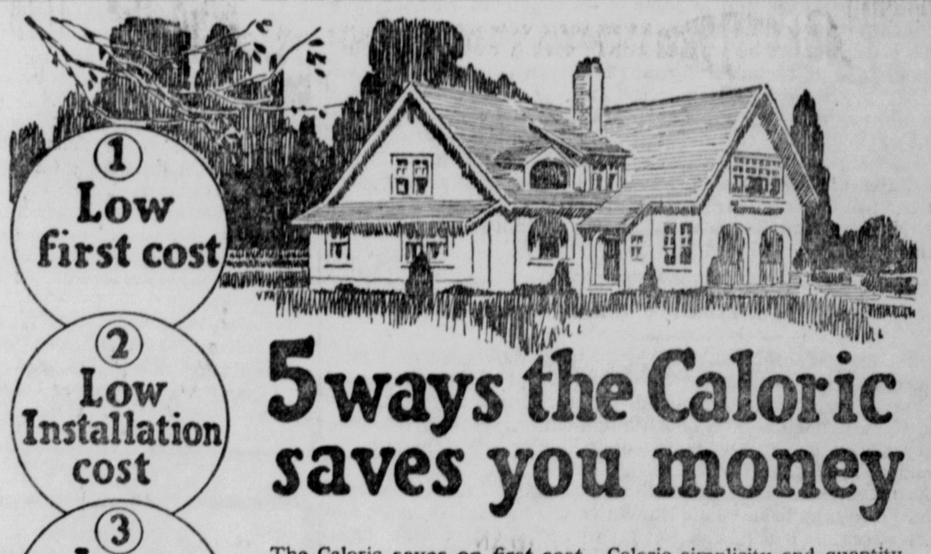

The Minnesota State Boxing Commission has asked Fulton to increase his forfeit from $1000 to $2000 and the same is to be forfeited if he does not go through with the contest.

Promotor Reddy asks all ticket holders to hold their tickets and use them on August 25th and anyone who cannot attend on that date can have their money refunded by returning their tickets where they purchased them.

Dotcor H. Tonstead wants Fred Fulton under his charge until August 18th and is positive he will be O. K. at that time. Neither Miske or Fulton will fight anyone else until after they clash on the 25th at Lexington Park.

Miske insists that Fulton be given all the time he wants so as to keep Fulton from entering the ring with any further excuses.

5 ways the Caloric saves you money

The Caloric *saves on first cost.* Caloric simplicity and quantity production make possible a quality product at a low price.

The Caloric *saves on installation cost.* No expensive heat pipes, no radiators, no plumbing and only one register. The Caloric is usually installed in new or old buildings by two men in one day.

Caloric *saves on maintenance cost.* Caloric parts are few and massive and built for lifetime service.

Caloric *saves money on fuel.* Records in more than 135,000 buildings prove that the Caloric reduces fuel consumption ⅓ to ½.

If building a new home, you can reduce construction costs by specifying Caloric heating. With the Caloric, you need *but one chimney* in the building and very small cellar space.

In addition to these unmatchable economy features, the Caloric is sold under a written Moneyback Guarantee to heat your home to 70 degrees in coldest weather.

Prices have been radically reduced. Come in and see the new improved model which puts Caloric heating still further in advance of all others.

Just as the ponderous, pea-eyed, palm-eared pachyderm towers above the miserable, morbid, and melancholy mouse, does Howe's Great London Wild Animal Circus overtop all other tented aggregations, says D. P. White, press agent here in advance of the show.

In the steel-barred cages of the Howe show are to be found the greatest collection of wild animals ever before gathered en group. Even opposition circus men reluctantly admit it. Animals, like figures, can't lie, and all may be counted. It is the boast of Col. Seth Howe, that under the canvas of his big 3-ring show may be seen the finest and best examples of jungle, plain and desert life. Each in his way is a perfect specimen. And, what is more, each is trained. In all, 103 animal acts are presented.

Years have been spent in making the collection unique, novel, and extraordinary. Patrons of previous years have been lavish in their praise not only of the animals as exhibited, but in the remarkable progress of the Howe's circus trainers, for each has in his way, achieved the hitherto impossible.

But the merit of the past is naught compared with the supremacy of the present. Scarcity and prohibitive prices have prevented circus owners generally from increasing their collections. But not Howe's Great London Circus. Throughout the winter, while the big show was in its southern California winter quarters, agents of Col. Howe scoured Europe and Asia for newer and finer specimens of forests and jungle beast. Even now the great menagerie is not complete although by far and away the best in the country, and new animals are arriving almost daily.

Howe's Great London Wild Animal Circus with its long trains of circus cars will reach Brainerd on the morning of Aug. 19th.

Two performances will be given, afternoon and evening, following the two-mile-long monster free street parade at 10:30 a. m.

First will be shown the greatest spectacle of modern times, the splendid, spirited, and scintillating "Cinderella in Jungleland", a frolicsome fantasy of fairyland, designed and produced under the personal supervision of Manager Chas. T. Boulware.

AT BREEZY POINT

Tourists from North Dakota, Oklahoma, Nebraska, Wisconsin Iowa, Etc. at Popular Resort

Following is a list of recent guests registered at Breezy Point:

Mr. and Mrs. A. F. Bader, Wahpeton, N. D.
C. K. Everhart, Fargo, N. D.
H. B. Maw, Fargo, N. D.
S. A. George and family, Ardmore, Okla.
Mr. and Mrs. F. S. Head and family, Minneapolis.
Dr. H. J. Forten, Fargo, N. D.
T. R. Tharolson, Fargo, N. D.
Mr. and Mrs. O. C. Kindey, Omaha, Nebr.
Mr. and Mrs. S. E. Brace, Minneapolis.
J. Flanagan, Indianapolis, Ind.

RETAINS HIS STOCK AND DIRECTORSHIP

In addition to yesterday's news story regarding the change in the personnel of the Comemrcial State bank, it may be stated that M. W. Irgens only retires as active officer in the bank but is retaining his stock and directorship.

CHARGED WITH TRESPASSING

Disturbing Peace, Damaging Furniture of Business & Professional Women's Club

Julius Witham and Sherwood Hartley were arraigned in municipal court this morning on a charge of trespassing, disturbing the peace and damaging furniture Tuesday night in the rooms over the Lyceum theatre occupied by the Business and Professional Women's club. Both plead guilty and were fined $10 which was paid.

The club rooms have never been locked, for the convenience of the members, and until this occasion, nothing has ever been disturbed.

MISSION FARM BUREAU MEETING

The Mission farm bureau unit were well entertained at their monthly meeting held at the Bert Sabin farm Tuesday.

A large number were in attendance, and enjoyed a very interesting program, which began with a picnic dinner, and closed with an inspection of Mr. Sabin's orchard.

This orchard is one of the finest in the country. Mr. Sabin has a new kind of tame plum, which has been introduced by the University of Minnesota. It is called the Underwood plum, is of a dark red color and as large as the large California varieties. The orchard consists of about four acres of small fruit.

The club passed a resolution endorsing Henry Ford's Muscle Shoals proposition.

MISKE-FULTON BOUT NOW SET FOR AUG. 25

The Miske-Fulton boxing contest which was to be held at Lexington Park St. Paul on August 11 has been definitely set for Friday evening August 25th at the same place and the only possible thing that will keep the boxers from going on is if they should lose a leg.

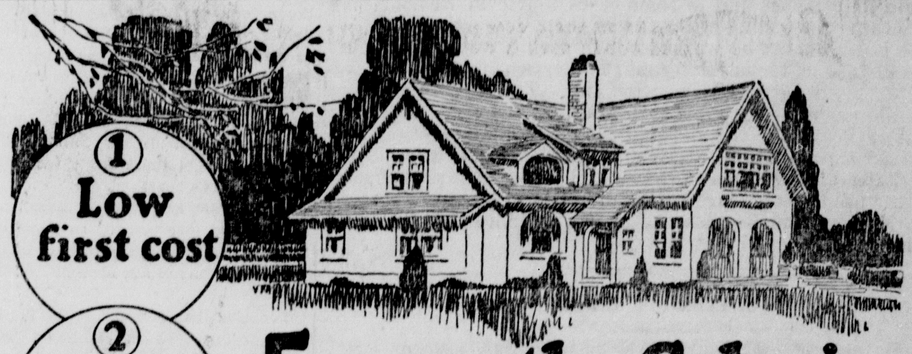

The Minnesota State Boxing Commission has asked Fulton to increase his forfeit from $1000 to $2000 and the same is to be forfeited if he does not go through with the contest.

Promotor Reddy asks all ticket holders to hold their tickets and use them on August 25th and anyone who cannot attend on that date can have their money refunded by returning their tickets where they purchased them.

Dotcor H. Tonstead wants Fred Fulton under his charge until August 18th and is positive he will be O. K. at that time. Neither Miske or Fulton will fight anyone else until after they clash on the 25th at Lexington Park.

Miske insists that Fulton be given all the time he wants so as to keep Fulton from entering the ring with any further excuses.

5 Cuts Building Costs

5 ways the Caloric saves you money

The Caloric *saves on first cost.* Caloric simplicity and quantity production make possible a quality product at a low price.

The Caloric *saves on installation cost.* No expensive heat pipes, no radiators, no plumbing and only one register. The Caloric is usually installed in new or old buildings by two men in one day.

Caloric *saves on maintenance cost.* Caloric parts are few and massive and built for lifetime service.

Caloric *saves money on fuel.* Records in more than 135,000 buildings prove that the Caloric reduces fuel consumption ⅓ to ½.

If building a new home, you can reduce construction costs by specifying Caloric heating. With the Caloric, you need *but one chimney* in the building and very small cellar space.

In addition to these unmatchable economy features, the Caloric is sold under a written Moneyback Guarantee to heat your home to 70 degrees in coldest weather.

Prices have been radically reduced. Come in and see the new improved model which puts Caloric heating still further in advance of all others.

LAWYERS AND THE LAW

THE recent meeting of the American Bar association in San Francisco was held at a time when a decreasing respect for the law determined that its program would be largely made up of discussions having to do with creating in the minds of the citizens of the United States a deeper respect for the laws of the land.

The two things most emphasized by the members of the association were the need of a more speedy and sure conviction of law-breakers, and an interpretation of the meaning of the Constitution of the United States in such terms that even the unlearned will see in it a safeguard of their privileges rather than an enemy which robs them of their privileges. The first of these was introduced as a result of the prevalent lawlessness, and the second because of the attack of Senator Robert M. La Follette upon the Supreme Court, and his proposed amendment to the Constitution whereby the power of the Supreme Court to declare laws unconstitutional would be removed.

Those who respect the laws of the land and who believe that the Constitution safeguards the personal liberty of all citizens will hope that the discussions of the Bar association may issue in concrete proposals which may result in leading to a deeper respect for the law and the Constitution by raising the prestige of both.

There can be no gainsaying the fact that the present lack of respect for the law has an underlying cause, and that that cause lies in the many hindrances to the meting out of justice is freely held. Technicalities have multiplied to such an extent that the guilty are often freed because of the raising of technical points which are potent, in the United States, to defeat the ends of justice. As in the case of English law, but contrary to the interpretation of law in France, the law of the United States holds to the presumption that a man accused of committing a crime is innocent until he has been proved guilty. And this is as it should be. But it ought not to result in unusually clever lawyers having cases dismissed by taking advantage of technicalities, nor in leading the jury away from the real evidence in the case by the introduction of innumerable side issues. Chief Justice of the Supreme Court William Howard Taft, who has recently been in England for the purpose of making a study of its legal procedure, will doubtless endeavor to lead the United States in attempting to get the quick results and almost certain conviction of wrong-doers which is common to the English court.

However, the wave of lawlessness must not be allowed to bring about quick convictions in which the innocent are condemned because of a wave of hysteria which leads to conviction without the submission of proper evidence. The United States saw an example of such hysteria when, in an attempt to check the spread of communism in this country, hundreds of men were torn from their homes and in some cases convicted without even the opportunity of calling witnesses in their defense.

This matter must be worked out in such a way as to secure the ends of justice, for anything that hinders the operation of impartial justice, defeats justice in the end. The court must have more power in brushing aside technicalities and holding counsel to essential evidence to the end that the guilty may be brought to speedy trial and certain conviction. Both the Constitution of the United States and the laws of the land must be made useful servants of the people, safeguarding the interests of all, and the members of the American Bar association can do more than others to make them such.

A FLEXIBLE TARIFF

THE United States last Friday evening took note of President Harding's communication in which the president requested that the tarif schedule under consideration be made flexible by entrusting to the chief executive such modifications as might become necessary owing to the uncertain conditions in the economic order resulting from the World war.

There are times when the desire of the chief executive officer of the nation ought to be made known in the legislative halls, for while the president's function is that of an executive and ought not to admit of a dictatorial attitude toward the legislature, nevertheless, conditions may justify a request for the modification of or initiation of legislation, when such modification or initiation is necessary to assure the best interests of the country as seen by the president who must either sign or veto such legislation.

Editorial opinion, as expressed in newspapers and magazines, and experts in economics, are with the president in his recommendation that the tariff be made flexible. Matters of this kind are much more likely to have proper treatment by commissions such as the tariff commission than can be expected from the senate. For not every senator, no matter how capable the members of the Senate may be, has the technical knowledge necessary to an intelligent decision on matters where a trained economist finds problems to test his skill.

The economic and industrial condition of the world order are such, as a result of the war which disturbed the equilibrium of Europe so disastrously, that even the high tariff champions and ardent protectionists of the republican party cannot be sure that the raising of a high tariff wall will bring the favorable results to America which they were certain must accrue from a high tariff during pre-war days. And President Harding's communication shows clearly that he has been led to this position for, while he does not ask that the duties imposed by the tariff be cancelled, he asks for a decision by the senate by which rates may be changed, after careful consideration by the tariff commission has demonstrated that they are not serving the country to its advantage.

President Harding's communication reveals that Warren G. Harding, in the White House, retains those qualities that led to his choice as presidential candidate of the republican party in 1920. He does not assume the role of dictator but asks that his recommendations have the consideration of others whom he treats as equals or at least as entitled to their own opinions.

NORTHWEST NEWS

Heavy Potato Crop

St. Paul, Aug. 16—With good luck from now on Minnesota framers will market one tenth of the country's total potato crop this fall.

The state's estimated production will be over 40,000,000 bushels and the estimated production for the country's total is 440,000,000 bushels.

Marketing the crop will be the most difficult step, according to agriculturists. The coal and rail strikes have created a traffic situation that means a car shortage.

If the potatoes can be marketed in time however farmers are virtually assured a fair price, it is said. There are several reasons.

Minnesota is producing almost twice as many potatoes as last year, but the country at large is not exceeding last year's production by any such mark. North Dakota and northern Wisconsin are also producing a good many more potatoes than last year, but the increase is not as great as in Minnesota.

Because the Northwest is producing a big crop, it is expected cars will be made available under emergency orders, if traffic conditions have not returned to normal by the time the crop movement is under ful way.

"Minnesota will have to furnish much of the country's potatoes, and they are here," said F. E. Balmer, University farm.

Northern Minnesota Fair

Bemidji, Aug. 16—Governor Preus was expected here today to deliver an address at the Northern Minnesota fair, now in session.

The governor will be shown samples of excellent crops grown this year in northern Minnesota. The crops promise prosperity for the Itasca park region agronomists told him.

MYSTERY FIRES IN OKLAHOMA HOMES

Norman, Okla., Aug. 16—Oklahoma's greatest mystery is as yet unsolved.

Twelve fires recently broke out in the home of J. L. Waggoner, farmer, living two miles in the country. Window curtains went up in smoke. Bed clothing became mysteriously ignited. Holes were burned in rugs, and to cap the climax, a wet rag hanging in the kitchen of the house was consumed as so much excelsior.

Origin of the blazes has never been determined. Occupants took the first few blazes as a matter of fact, but on the second day, following a night of fighting fires on the roof of the house, in clothes closets and under beds, the blazes were reported to county authorities.

A guard of heavily armed deputy sheriffs were deployed around the house and kept there for three days. No more fires occurred.

During the two days of fires, and since, Waggoner refused to move his family from the house, in spite of recommendations of friends and authorities.

Theories that enemies of the family were trying to burn his home were scoffed at by Waggoner. "If any member of my family ever had an enemy, I do not know about it," he said.

Dr. I. H. Godlove, instructor in chemistry at the State University here, declared the fires were not started by chemicals, as was first generally believed.

The house, a two-story square fram building, setting back from the road, and in a permanent shadow from surroundings and overthrowing trees, for the past half-century has had the reputation among natives as being "haunted."

The building was unoccupied for many years, prior to the moving in by the Waggoner family. Waggoner's corn field was mysteriously burned shortly after he moved to the house. Two years later the family awoke to find their barn in ruins, the last flames dying down.

WOULD RATHER BE FLOORWALKER HERE THAN A COUNT IN SPAIN

"I'd rather be a floorwalker in America than a nobleman in Seville" so said Edmund Alfonso de Jiminez, thirty-six, reputed Count of Spain, when reporters flocked to a New York department store to talk with him about his marriage, July 8, to Miss Flora Louise Nelson, primary grade school teacher of Union Hill, N. J. Photo shows Alfonso de Jiminez and his bride, photographed after the reputed Count finished his labors as a floorwalker for the day.

COUNTY FAIR TO BE A WINNER

Complete Radio Receiving Set Installed to Keep Pequot in Touch With the World

NEW GRANDSTAND FINE ONE

11 Free Attractions, Finest Lot of Dairy Cattle Ever Shown, Many Other Attractions

One of the innovations at the Crow Wing county fair this season will be a complete radio receiving set, which will be installed on the grounds with a competent man in charge. This will enable fair visitors to keep in touch with the outside world during every hour of every day of the fair.

The new grandstand is a decided improvement over the old one, both in appearance and comfort. Refreshments can be secured without leaving the grand stand. Concessions for this purpose will be sold and the rear of the grandstand will be used for selling booths.

Eleven free attractions, including trained animal acts, acrobatics, funny clowns cutting clever capers, and aerial performances will be shown in front of the grandstand each day. This is the largest list of free attractions ever shown at the county fair.

The finest lot of dairy cattle ever brought together in this county will be on exhibit, in fact every department will have an extra large collection which will be well worth going miles to see.

Altogether, the directors of the fair have done their utmost to make this the largest and best exhibition ever held in this county. Season tickets are being sold, the price being $1, which will admit one to the fair each of the three days. Single admission tickets will be 50c.

"BRAINERD, BIGGEST LITTLE CITY IN STATE"

M. E. Nichols of the Nichols Expert School of St. Paul Well Pleased With Brainerd

PRAISES COURTESY SHOWN HIM

He and His Wife Consider Brainerd One of Brightest Spots on Their Motor Trip

J. E. O'Brien, of the Northern Home Furnishing Co. is in receipt of a letter from M. E. Nichols, of the Nichols Expert School, St. Paul, and believing the contents would be of interest to readers of the Dispatch he has handed it to us and we quote it herewith:

"My dear Mr. O'Brien: It is a downright pleasure to me to enclose my check in payment of the bill of goods that you so courteously charged to me on the occasion of my motor trip through your hospitable city on July 18th last.

Mrs. Nichols and I had many interesting experiences on our trip. We found cities and towns that were conducted with reckless disregard of visitors. On the other hand, and in marked contrast, we found your wonderful city of Brainerd to be extremely hospitable, with well-paved streets good hotels, wide-awake merchants, and everybody (Those we met, at least) seemingly filled with public spirit and an intent to give a hearty welcome to the stranger.

Both Mrs. Nichols and I were and still are of the opinion that Brainerd is one of the bright spots on our trip. It is a REAL CITY, the best on the map, and we aim to call on you whenever and as often as we pass through. It is easy to understand why Brainerd has been called the "biggest little city in Minnesota." It merits the name.

Thanking you most cordially for courtesies extended to us, which I assure you are thoroughly appreciated, I am, Sincerely yours,"

This is the kind of impression that every visitor to Brainerd should carry home with him. It's the kind of advertising that brings results. We hope that every transient will be as well treated and as well pleased with our city, and that Brainerd's reputation for hospitality, and courtesy will cover an ever increasing territory.

Dorcas Society Friday

On Friday evening the Dorcas society of the Swedish Bethany church will meet at the farm home of Mr. and Mrs. Chas. Swanson, six miles south of the city. A hearty welcome is extended to all.

Fore!

Local golfers will be given a special treat in the way of a novelty motion picture which shows at the Lyceum on Friday and Saturday. The reel is entitled "Fore" a slow motion film showing the correct stroke in golf, and which proves very instructive for all lovers of this popular game.

36 BRAINERD CHILDREN AIDED

Now Know the Joys of Repaired and Clean Teeth Due to Aid of Dentists Voluntarily Given

DENTISTS DO THEIR BIT HERE

Made it Possible for Brainerd's Future Citizens to Grow into Stronger and Better Citizens

In an interview with the Dispatch, Miss Eula Michael, City and School Nurse, said:

There are 36 Brainerd children who now know the joy of repaired and cleaned teeth due to the fact that all the dentists volunteered to care for these childrens teeth free of charge. It would have been impossible for these children to have had their teeth cared for otherwise.

The dentists have done their bit this summer for these future citizens of Brainerd in helping to make it possible for them to grow strong and better able to be the men and women they should be.

A child whose teeth are decayed is not able to chew his food properly, his stomach is compelled to work too hard, assimilation is impaired and his health suffers. In a few years these children will understand and be better able to appreciate the help the Brainerd dentists have been to them.

SEEK PRINTING JOBS

Outside Concerns Writing to Brainerd Matrons to Print Envelopes and Other Stationery

Brainerd matrons are receiving letters from an outside printing concern quoting prices and seeking to print their cards, envelopes and other stationary.

The letter broaching the matter reads:

"Dear Madam: Your name has been given us by the wife of the pastor of your local church as being prominent in the club, social and church activities of your city. This being true, you require much stationery which will please you greatly. The woman of today is handling her affairs as efficiently as the man in his business."

There are four print shops in Brainerd, and all printing commissions can well be handled in Brainerd and home money thus kept in circulation at home.

Whoever the minister's wife was who supplied such lists of names to the outside printing house, she had little regard for the encouragement of the printing industry in her home town in Brainerd.

WRITES FROM CHINA

Henry P. Ditmar Unable to Attend Brainerd's 50th Anniversary Celebration

In a letter to O. J. Bouma of the Chamber of Commerce, Henry P. Ditmar writes from far-off China:

"Dear Sir: Concerning your invitation of June 20th, received today, I can assure you that it is my one regret and misfortune in not being able to attend the fiftieth anniversary of your city of which I was a resident and railroad man of the eighties.

In conclusion I wish to thank you very kindly for the invitation and your kind remembrance of me in these far off parts. I have met with good success in my present undertaking and I hope that in one year from this date I will be in Brainerd and can tell you something about what I have seen."

Mr. Ditmar's letter is dated July 17th, and his address is Fushun, South Manchuria, China. A great many of the old timers will remember him well, and hope that he may carry out his plans of visiting Brainerd next year.

Notice to the Public

HENRY FORD ASKED TO LOCATE IN CITY

Brainerd in Geographical Center of State, Close to Iron Ore Deposits Best in State

WATER POWER IN PLENTY HERE

Mr. Ford Invited to Come to City and Send His Engineers Here for an Examination

If Henry Ford doesn't have Brainerd and its many advantages cinched in his mind, it will be no fault of the boosting of this city. The Chamber of Commerce is adding its bit toward bringing the city to his favorable attention, as is witnessed by the following letter:

"Dear Sir: According to newspaper reports you are contemplating the location of a manufacturing plant in Minnesota. I would like to call your attention to some of the advantages of our city with the hope that you will have one of your engineers investigate and report to you.

We are within ten miles of the exact geographic center of the state on the Northern Pacific and Minnesota & International Railroads. The Minneapolis, St. Paul & Sault Ste. Marie is built as far as Riverton, eight miles from Brainerd. We are within eight miles of the Cuyuna iron range and have one mine within the city limits, in fact, this region is underlaid with wonderful deposits of iron ore. The Mississippi river skirts our city and has considerable fall, especially at the junction of the Crow Wing river. A site on the river could be secured where sufficient power could be generated to run a large plant.

The Brainerd Chamber of Commerce stands ready to do everything within its power to aid you, both in your investigation of this locality and in any other way consistent. If you will send an engineer here, I will be glad to furnish an automobile and give him as much of my time as he will require in looking over this locality."

Mr. Ford has been looking for a location for a large manufacturing plant at some city where he can be close to a supply of iron ore and still be centrally situated. There is no doubt but what Brainerd offers these advantages, combined with plenty of waterpower, and it is hardly an idle dream to picture him choosing our city. This possibility will come nearer realzation if every citizen will add his bit. Brainerd with her location, should have more industries.

CROW WING FARM BUREAU MEETS TONIGHT

The Crow Wing Farm Bureau unit meets this evening at the town hall in Barrows, and the meeting bids fair to be a most interesting one.

The Lion's club orchestra will play and the famous "Knutt Quartette," organized last winter, will render some of its choicest selections. This wonderful organization gained county-wide renown through its melody-making achievements at several gatherings, and every member still claims that he is in fine voice.

It might be stated that more business men could well afford to attend these farm bureau meetings. A few of them are on hand at nearly every gathering, but more should take this opportunity of getting better acquainted with their farmer friends.

EARLY to bed, early to rise, stick to your business and advertise.

BATTLE BETWEEN RICH AND POOR

By HENRY L. FARRELL
United Press Sports Editor

New York, Aug. 16.—Pennant races in both major leagues have developed into a battle between the rich and poor.

With millions at their finger tips, the two New York clubs have spent prodigiously and not unjudiciously.

Both have seen their investments turn into pennants and pennants return large sums of cash.

* * * * * * * * *

Fighting the Giants and the Yankees are the two St. Louis clubs, slim of pocketbook, but fat in resourcefulness. While the New York clubs bought, the St. Louis teams sought and they found mostly some castoff misfits that were worked into real baseball teams.

* * * * * * * * *

Both St. Louis teams are built around two great stars, the only big stars that New York has not, and probably never will be able to buy. The Cardinals are built around the great Rogers Hornsby and the keystone of the Browns is the super-star, George Sisler, the perfect ball player.

* * * * * * * * *

The Giants have invested a half-million dollars in Arthur Nehf, Frank Snyder, Irish Meusel, Dave Bancroft, Heinie Groh and Hugh McQuillin.

The Cards got Rogers Hornsby for $1,500 and developed him into a $200,000 player. Jack Fournier is a cast off from the Chicago White Sox. Del Gainor went from the Boston Red Sox to the American Association and was grabbed by Branch Rickey. Eddie Ainsworth was kicked off the Tigers team as through and he is a sensational comeback with the Cards. Doc. Lavan came in a cheap trade with the Washington Senators and Stock came at a low figure from the Phils. Jack Smith came from Seattle for $600. Muller was drafted from Syracuse.

The Giants have three developed players but they are real stars—Frank Frisch, Ross Young and George Kelly.

* * * * * * * * *

Close to a million dollars have been spent by the New York Yanks for Babe Ruth, Carl Mays, Waite Hoyt, Sam Jones, Joe Bush, Frank Baker, Everett Scott, Wally Schang, Bob Shawkey, Mike McNally, Wally Pipp, Jos. Dugan, Johnny Mitchell and Whitey Witt.

In contrast, the Browns have spent practically nothing. Sisler was secured dirt cheap when the national commission decided the Pittsburgh-St. Louis argument over his contract in favor of the Browns.

Ken Williams and Jacobson, major league castoffs, came up from the Western Association. Hank Severeid was sent down from the big time and brought back by the Browns. McManus came direct from the minors and Ellerbe was grabbed, after Detroit had rejected him. Gerber was picked out of the American Association. Shocker, the pitching ace, was secured in a trade with the Yanks for Pratt and Plank Pruett came direct from college, while the other pitchers were groomed in the minors.

* * * * * * * * *

If the Browns and the Yanks were put on the auction block as a working ball club, the Browns probably would bring the highest price.

While the Giants and the Yanks are fighting for the title of the champion buyers, Harry Frazee holds the undisputed selling championship of all times and all weights. Since Frazee secured the Boston Red Sox in 1916, he has disposed of Babe Ruth, Carl Mays, Shore, Leonard, Foster, Gregg, Carrigan, Thomas, Cady, Agnew, Hoblitzell, Gainor, Barry, Scott, McInnis, Gardner, Janvrin, Strunk, Schang, Shawkey, Hoyt, Bush, Jones Speaker, Hooper, Lewis, Shorten, Walker, Walsh—the greatest assemblage of talent in baseball.

* * * * * * * * *

For that all-star gang of players, Frazee must have benefited to the extent of at least $300,000. He has suffered a poor gate at his Boston park but he doesn't care as long as he can find a market for players. One thing in Frazee's favor is that he is frank. He admits that he has only a passing interest in baseball and that his chief concern is to get the money.

AMUSEMENTS

Thomas Meighan in "The Easy Road"

Some of the sweetest romances ever told are those which develop after marriage, when the husband and wife, estranged or separated perhaps, are finally brought together again with that understanding that insures future happiness. Such is the romance in "The Easy Road," the Paramount picture, starring Thomas Meighan, which will be shown at the Lyceum theatre tonight and Thursday.

The husband, who in spite of hardships has achieved fame as a novelist, settles down on easy street with his rich wife to enjoy life. But with pleasure as his false idol, his life and his character deteriorate. His wife,

in the hope of renewing his ideals goes abroad. The novelist goes from bad to worse. He is about to commit suicide when something happens that inspires him anew and he again becomes the man of old. The wife returns, half-thinking to get a divorce and marry another. The ensuing episodes show how both find happiness.

Glady George has the leading feminine role opposite Mr. Meighan, and Grace Goodall, Arthur Carew, Maxine Elliott Hicks and Lura Anson are in the cast.

St. Paul, Aug. 16.—Heirs of the late Alexander McKenzie, well known North Dakota politician, probably will reach agreement over settlement of his estate this week.

All of the heirs to his estate favor a settlement without contest.

CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbor!

Mrs. A. C. Hanson, 911 Kingwood St., Brainerd, says: "I had such a backache due to a disordered condition of my kidneys I was almost frantic. There was hardly a thing about the house I could do, my back was so sore and stiff. Stooping so irritated my back and kidneys I just had to give up. I had a constant, dull ache across the small of my back that just laid me out. I got such dizzy spells I didn't know what I was doing nor where I was going. I certainly was feeling miserable until I was led to use Doan's Kidney Pills. It only took a short time for Doan's to rid me of the misery and since then, my health has been just fine."

DENBY'S ADDRESS AROUSES BRITISH

EXPLANATION OR APOLOGY FOR ROUGH FREIGHT HANDLING CHARGE DEMANDED

Shanghai, Aug. 15—The North China Daily News, the official British paper in China, has published a demand on behalf of the British chambers of commerce in China, for an explanation of the address made by Secretary of the Navy Edwin Denby in Japan in which he referred to the rough handling of American cargoes on non-American ships. Mr. Denby's speech was delivered in Yokohama July 19, and he said:

"Instances have been known of deliberate rough handling of American freight to prejudice foreign markets against American goods. I do not understand how a foreign company could so debase itself as to fail to discharge honorably a duty entrusted to it. It is such things as that whereby trade may be indirectly a cause of war."

British shipping interests in the Orient have attributed the naval secretary's remarks as referring to them and have demanded an explanation or an apology.

It is understood that they have forwarded a demand for retraction through diplomatic channels to Washington.

HEARSES SEARCHED FOR HOOTCH; 75 PROTEST

New York, Aug. 16.—Seventy-five members of the Motor Hearse Owners association protested against the action of prohibition agents, who, they declare, have been stopping hearses on Long Island to search for liquor. A committee of the organization is to be appointed to investigate the situation.

CHILDREN LOSE LIVES IN JEWISH HOME FIRE

(By United Press.)

Sawbridge, Quebec, Aug. 16—Ten children and a man and woman were burned to death today in a fire which totally destroyed the Jewish boys home here.

The dead are Thomas Legault, caretaker, his wife and two children, and eight orphans ranging in age from six to sixteen.

Collapse of the building where the victims were hopelessly trapped, threw the vicinity into darkness by destroying the local lighting plant, and added to the horror as the rescuers fought vanly to aid the children.

Only the fact that the majority of the orphans slept out of doors prevented their perishing in the flames. Twelve bodies were found, but none could be identified today.

WILL CELEBRATE THE BATTLE OF ALAMANCE

(By United Press.)

Burlington, N. C., Aug. 16.—This town will celebrate "Alamance Day" August 17 with a parade, and a reproduction of a historic battle which preceded the Revolutionary War.

Hundreds of red-coated 'supers' will take the parts of British soldiers, and other hundreds in the garb of pioneers will represent the "Regulators."

SQUIRE EDGEGATE—All Suit Salesmen Hand Out That Line — BY LOUIS RICHARD

BATTLE BETWEEN RICH AND POOR

By HENRY L. FARRELL
United Press Sports Editor

New York, Aug. 16.—Pennant races in both major leagues have developed into a battle between the rich and poor.

With millions at their finger tips, the two New York clubs have spent prodigiously and not unjudiciously.

Both have seen their investments turn into pennants and pennants return large sums of cash.

* * * * * * * * *

Fighting the Giants and the Yankees are the two St. Louis clubs, slim of pocketbook, but fat in resourcefulness. While the New York clubs bought, the St. Louis teams sought and they found mostly some castoff misfits that were worked into real baseball teams.

* * * * * * * * *

Both St. Louis teams are built around two great stars, the only big stars that New York has not, and probably never will be able to buy. The Cardinals are built around the great Rogers Hornsby and the keystone of the Browns is the super-star, George Sisler, the perfect ball player.

* * * * * * * * *

The Giants have invested a half-million dollars in Arthur Nehf, Frank Snyder, Irish Meusel, Dave Bancroft, Heinie Groh and Hugh McQuillin.

The Cards got Rogers Hornsby for $1,500 and developed him into a $200,000 player. Jack Fournier is a cast off from the Chicago White Sox. Del Gainor went from the Boston Red Sox to the American Association and was grabbed by Branch Rickey. Eddie Ainsworth was kicked off the Tigers team as through and he is a sensational comeback with the Cards. Doc. Lavan came in a cheap trade with the Washington Senators and Stock came at a low figure from the Phils. Jack Smith came from Seattle for $600. Muller was drafted from Syracuse.

The Giants have three developed players but they are real stars—Frank Frisch, Ross Young and George Kelly.

* * * * * * * * *

Close to a million dollars have been spent by the New York Yanks for Babe Ruth, Carl Mays, Waite Hoyt, Sam Jones, Joe Bush, Frank Baker, Everett Scott, Wally Schang, Bob Shawkey, Mike McNally, Wally Pipp, Jos. Dugan, Johnny Mitchell and Whitey Witt.

In contrast, the Browns have spent practically nothing. Sisler was secured dirt cheap when the national commission decided the Pittsburgh-St. Louis argument over his contract in favor of the Browns.

Ken Williams and Jacobson, major league castoffs, came up from the Western Association. Hank Severeid was sent down from the big time and brought back by the Browns. McManus came direct from the minors and Ellerbe was grabbed, after Detroit had rejected him. Gerber was picked out of the American Association. Shocker, the pitching ace, was secured in a trade with the Yanks for Pratt and Plank Pruett came direct from college, while the other pitchers were groomed in the minors.

* * * * * * * * *

If the Browns and the Yanks were put on the auction block as a working ball club, the Browns probably would bring the highest price.

While the Giants and the Yanks are fighting for the title of the champion buyers, Harry Frazee holds the undisputed selling championship of all times and all weights. Since Frazee secured the Boston Red Sox in 1916, he has disposed of Babe Ruth, Carl Mays, Shore, Leonard, Foster, Gregg, Carrigan, Thomas, Cady, Agnew, Hoblitzell, Gainor, Barry, Scott, McInnis, Gardner, Janvrin, Strunk, Schang, Shawkey, Hoyt, Bush, Jones Speaker, Hooper, Lewis, Shorten, Walker, Walsh—the greatest assemblage of talent in baseball.

* * * * * * * * *

For that all-star gang of players, Frazee must have benefited to the extent of at least $300,000. He has suffered a poor gate at his Boston park but he doesn't care as long as he can find a market for players. One thing in Frazee's favor is that he is frank. He admits that he has only a passing interest in baseball and that his chief concern is to get the money.
